OTTAWA VALLEY SHOWBIRD

Twenty-eight years ago, the Ottawa Valley Showbird was first published. It was then a small, hand-printed sheet, and its content was limited to a few pages of news and advertisements. But over the years, it has grown into a large, well-organized publication, and its content has become much more varied and interesting. Today, it is one of the most popular and widely-read publications in the Ottawa Valley, and it is a true reflection of the life and interests of the people who live in this beautiful region.

It is a pleasure to announce that the Ottawa Valley Showbird is now published weekly. This change will allow us to bring you more news and information more frequently, and it will also enable us to cover a wider range of topics. We hope that you will find this new format as enjoyable as the old one, and we will continue to strive for the highest quality of content and presentation.

The Ottawa Valley Showbird is published by the Ottawa Valley Showbird Association, which was founded in 1901. The Association is a non-profit organization, and its purpose is to promote the interests of the Ottawa Valley and to provide a forum for the expression of opinion on local and national issues. The Showbird is the Association's main publication, and it is a true reflection of the life and interests of the people who live in this beautiful region.
